The Great Ship Arrives
Is Man? Admirable
Begins a New Era
Plus 2 Reality.

BY ARTHUR BRISBANE

Oct 15 will remain a date in the history of the world. The arrival of the Graf Zeppelin at Lakehurst, N. J., at 10:10 a. m. today, marks the beginning of a new era in aviation. The ship, which has been in the air for over 24 hours, is the first of its kind to make a transatlantic flight. The ship's arrival at Lakehurst is a triumph for the German air force, and a testament to the skill and courage of the crew. The ship's journey across the Atlantic has been a feat of engineering and navigation, and it is a testament to the power of the human spirit. THOMAS HITS USE OF WOODEN PRISON
Declares Prisoners Should Never Be Housed in Frame Structures
Columbus, Oct. 16.—"The state of Ohio should never allow prisoners to be housed in wooden structures," declared Warden P. E. Thomas of the Ohio penitentiary, today. The warden's declaration was contained in a report submitted by him to Gov. E. Donahay covering his recent investigation at Junction City of the fire which destroyed a dormitory at the state brick plant on Oct. 8. The fire resulted in the death of 15 prisoners and serious injury to several others.

"I do not wish to appear in the role of an 'I told you so,' but, when this dormitory was erected, I recommended a fireproof structure," Thomas told Donahay. "From the ashes of the past we must take cognizance of the needs of the future."

All of the 15 dead prisoners were killed in the fire which broke out in the dormitory at 10:15 p. m. on Oct. 8. The fire started in a room where 15 prisoners were housed. The structure was a wooden building, and the fire spread rapidly, destroying the building and the lives of the prisoners. The warden's report stated that the fire was caused by a cigarette which had been thrown into a pile of straw. The fire spread rapidly, and the prisoners were unable to escape. The warden's report also stated that the fire was caused by a cigarette which had been thrown into a pile of straw. The fire spread rapidly, and the prisoners were unable to escape.

About 6,000 persons attended the meeting.

PITTSBURGH WANTS JAWORSKI HEARING
Completing Arrangements for Return of Cleveland Bad Man

Cleveland, Oct. 16.—The return to Pittsburgh of Paul Jaworski, landlubber and murderer, named virtually assured today, following a conference last night between Prosecutor Edward C. Stanton, of Cleveland, and George McGowan, district chief, of Allegheny county, Pennsylvania.

If it is certain that Jaworski will be executed when he goes to Pennsylvania, he is willing to allow him to be taken back, Stanton told. The prosecutor will go to Pittsburgh this week and if District Attorney B. H. Gardner can promise him that there will be no delay in hearing Jaworski to the electric chair, arrangements for the flight's return will probably be completed immediately.

Jaworski shot his way out of the county jail at Pittsburgh last year after he had been convicted of first degree murder. A month ago, he was captured here after a gun battle in which he killed a policeman and wounded two other men. The desperado was himself seriously wounded and is now partially paralyzed.

Lady Drummond Hay Would Return on Ship
Copyright 1928 by International News Service and New York Evening Journal

NAVAL AIR STATION, Lakehurst, N. J., Oct. 16.—"A lady?" "I should say not!" "I'd be delighted to make the flight back in the Zeppelin. In fact I fully intend to do so."

Lady Drummond Hay, first woman transatlantic zeppelin passenger was just that chipper in an exclusive interview. Gay, smiling and high-spirited through situations that would have rebuffed most women in hysteria, the leading lady of the transatlantic flight remained plucky and game, not only through the trying ordeal of the flight but through the wild trip from the big sky back to the flight officer.

While crowds milled and cheered about her and fought to break through the military police that guarded her, the beautiful young Englishwoman, remained undisturbed, as talked and smiled as she has shown herself through the trying long-distance air flight.

The first glimpse of America had of her was through the window of her stateroom a six-by-eight apartment two rooms back of the main lounge on the starboard side of the big airship.

"The last night it was dreadful rough, so rough I could hardly sleep. I sat down on the floor, and again I all but went through the wall—I really thought I should."

"Were you at all alarmed, then?" she was asked. "Not the least," she insisted, "you must say that I was disturbed."

"How about the shocker rations? Did you suffer from hunger?" "Not at all," she responded. "In fact we had lots of good things to eat left over—here, here, here!"

She offered and tossed pieces of the well wrapped milk chocolate to her interviewer. "I think there's even more candy left," she called to her interviewer. "But there's no champagne."

As she stood in the ship's window framed in the zig-zag and rail of the biplane hangings and outlined against the red and gold binnacle walls, Lady Drummond Hay presented a lovely picture. A flashlight in the hands of one of the guards was thrown on her and from the enthusiastic crowd there came shouts of "there she is," followed by spontaneous cheering.

GREAT CARD IN BIG TEN

OHIO STATE vs Michigan, Minnesota vs Chicago, Purdue vs Wisconsin, Illinois vs Wisconsin. That is the menu on tap in the Big Ten for Saturday afternoon.

After a somewhat muddled afternoon in the Western conference last week fans are rather at a loss on just what is going to develop this week.

Of course, Marion interest will be centered around the Michigan State game at the Columbus stadium. Several hundred fans those who were fortunate enough to obtain the paste boards, will represent this city at the game.

Wisconsin should have had little trouble with Purdue while Illinois and Indiana will provide a little more interest. Illinois is playing its first conference game while the Hoosiers are still playing after upsetting Michigan last week. Chicago's journey to Minnesota will cause only a limited amount of excitement. Still, looking teams can always come back.

BOWLING 800 YEARS OLD

ONE of the oldest sports that continues to attract interest today is bowling. Few followers of the ten pin sport in Marion realize that the game dates back almost 800 years ago long, before the time Columbus discovered America.

Bowling was introduced in the United States by the Dutch during the colonial period. At that time and until 1840 it was played upon the green.

Bowling on alleys seems to have been derived from the old game of skittles which in turn may be traced to the still older game of bowls.

The original game of bowling, called for nine pins set in the shape of a diamond. In the early part of the nineteenth century the game of nine pins was prohibited by law because of its excessive betting. For a while bowling passed out of existence. But when the game was revived it was called popular and became popular again. An extra pin was added making a total of ten pins the same number as in use today.

The first record of a match in Knickerbocker alleys in New York City, on Jan. 3, 1840, from this time the game is slowly until 1870 when the National Bowling League was formed. The rules were fixed and the condition of matches seemed to have varied with each match.

Kamm Awarded Fourth
Willie Kamm, White Sox third baseman and Fern Goetz, Washington outfielder, were fourth and fifth in the selections.

The league commission reported that every member voted for Manush, two placing him first, one second, third and one fifth. Lazzari and Goetz, Yankees pitching star, were the only other players voted first choice, each receiving one first choice vote.

FLOOD LIGHTS NEW FEATURE FOR STATE

Varsity Sent Through Long Practice For Saturday's Fray

Columbus, Oct. 15.—Shades of night falling on the stadium field near the Ohio stadium will not hide the lights of the Ohio State football stadium. Flood lights will be used in preparation for the clash with the Wake Forest team of the University of Michigan Saturday. It was revealed here today.

Strong flood lights upon the practice field in the south end of the stadium, will light the way for countless workouts until Coach Jack White is willing to call it a day. The flood lights were used for the first time this season last night when varsity squad members were sent through a light workout until nearly 7 o'clock.

Through by-laws and common sense to day it was announced that the flood lights underwent a lengthy test concerning the frills of the Northwestern frays last night before they were ordered out on the practice field. No scrimmage was held by the varsity team but that method of a workout is expected to take place several times this week according to the official announcement.

Due to the noise 75,000 fans are likely to make while watching the twenty-fifth revival of the Ohio-Michigan football rivalry the Ohio rivalry is expected to charge his fans to use the handle as has for other great football games. Instead of the thick method used so far this season.

Upheld Bleachers Guarded by Soldiers at South End of Stadium was the only number of the varsity squad not in uniform last night. Ken Hillman and Kippus, full of both sets of uniforms, were out of the lineup last Saturday due to injuries sustained in practice. Injured players last night.

"Breeches Bible," Published in 1609, Is Believed To Be Oldest in County

The name "Breeches Bible" is due to its word of God is 37, where Adam and Eve are reported to have covered up their bodies together and made themselves breeches of fig leaves. The name of the Bible is due to the fact that it was the first Bible printed in the county. It was published in 1609 by Robert Barker, a printer in London. The Bible is a small volume, about the size of a pocket book, and is written in a simple, plain style. It is believed to be the oldest Bible in the county.

THE SAFETY OF YOUR HOME IS MEASURED BY THE SAFETY OF YOUR TOWN
Your own carelessness in safeguarding home, factory, store or other property against fire is a solemn duty, but it is not enough.
No matter how careful you may be, a bad condition in adjacent or even distant property may undo all your own efforts. Cities must be made safer. It is a civic as well as a personal obligation.
Here is where the Stock Fire Insurance companies—constituting the National Board of Fire Underwriters—have rendered a conspicuous service. Their skilled engineers work unceasingly to make American cities safer.
These engineers have systematically surveyed more than 100 cities, many of them several times. The improvements in water supply, fire alarm systems, fire departments and safety ordinances have been of great public benefit and a decided factor in the consistent rate reductions shown by Stock Fire Insurance.
New hazards, growing out of new inventions and processes, call for prompt engineering treatment. These engineers are always on the alert to provide the necessary measures.

DODGE BROTHERS NEW VICTORY SIX
Smarter in Appearance ~ More Luxurious in Appointments ~ With Increased Room and Still Finer Performance
Style stands out in all new Victory body types. There is an inviting swagger in the sweep of the unproved one-piece fenders, an assurance of power in the higher and more massive radiator and hood lines.
Bodies are not only smarter, but larger, providing increased head-room, leg-room and seat-comfort. Deeper, softer cushions and specially selected hardware and upholstery sound a distinctive note of interior luxury, while higher and wider doors facilitate entrance and exit.
The new Victory Six emphasizes the unusual structural advantages first introduced in the original Victory. The chassis frame is so bolted to
The body that it literally becomes a part thereof—a simplified, more rugged, and squarer-proof construction that reduces weight, eliminates rattles and lowers the center of gravity.
This unique Victory design provides roadability and riding ease as remarkable and unusual as Victory pick-up, power and flexibility.
There is just one way to find out how different and better Victory performance really is. Drive the car yourself!

Germany Expresses Gratitude to U. S.

Berlin, Oct. 16.—President Hindenburg, of the German Republic, today sent a message to President Coolidge, of the United States, expressing the gratitude of the German people over the friendly reception of the Graf Zeppelin and voicing the hope the voyage would strengthen the ties of friendship between the two nations.

The German executive acted cautiously. He waited until the Graf was actually safe at its landing place in Lakehurst, N. J., before answering the message of congratulation sent by Mr. Coolidge.

President Von Hindenburg could not thank you Mr. President, for the congratulations and appreciation which you kindly expressed over the performance of the Graf Zeppelin and its crew. In the name of the German people I want to express sincere thanks for the splendid reception and assistance given in the ship's and its crew. I hope in the near future in aviation (friendly relations between the great American people and Germany will be further cemented).

Press Describes Reception

All the newspapers printed columns today describing in detail the reception given the Graf, especially in Washington and New York. Germany celebrated the Graf's victory over the storm as a national triumph. The whole nation was thrilled by the achievement and by news of the enthusiastic reception.

Zeppelin May Visit Ohio

Cleveland, Oct. 16.—If the mighty Graf Zeppelin makes an island trip it will, in all likelihood, pass over Cleveland, Akron and other northern Ohio points.

This became known here today following receipt of a telegram from H. H. Lowe, representing the Cleveland Chamber of Commerce, who is in New York, where he has conferred with Hugh Allen, personal agent in America for Dr. Eckener. Allen will route the big airship's island trip, if one is made.

Cleveland will be on the Graf Zeppelin's schedule if an island trip is made. That is assured. Lowe used the chamber of commerce here.

May Return Nov. 1

Dr. Eckener is a close friend of officials of the Goodyear Rubber Co. of Akron, and is particularly hopeful that he may include that city in his trip. The Ford motorcar plant at Dearborn Field, Mich., is the only one in this section that would be capable of mooring the big ship.

It is believed probable that the Zeppelin might make a one-day trip, touching as many island cities as possible and remain overnight at the Ford plant. Dr. Eckener is expected to return to Germany with the Zeppelin about the first of November, according to reports received here. Allowing time to repair the ship's damaged port fin, there would still be an opportunity for a flight to Dearborn field and return, it was believed here.

talking too frankly about flying and the mistakes of his "hotters."

The air fleet will be a separate unit eventually, and no well-meaning dog, no protector of battleship building interests, will be able to prevent it.

The Zeppelin's arrival should make this government realize that flying is too great to be a BRANCH of army, navy or anything else.

making powers over to a commission, Hoover approved the U. S. tariff commission's work.

"The American people will never consent to delegating authority over the tariff to any commission, whether Republican or Democratic," he continued. "Our people have a right to express themselves at the ballot box on such a question as this. There is only one commission to which delegation of that authority can be made."

That is the great commission of their own choosing, the congress of the United States and the president.

Urges Protection Abroad

After declaring that foreign trade "thrives only in peace," Hoover urged the protection of American citizens abroad.

He also there can be constantly collected amongst all nations that the lives and property of all citizens shall be protected, the foreign trade and the economic life of the world will degenerate instead of thrive," Hoover said. "Fortunately the conditions where it has been necessary to send armed forces to preserve this principle are diminishing."

Another feature of Hoover's day in New England was his meeting with officials of foreign birth. He spoke to French, Swedish, Jewish, Greek, Armenian, Syrian, Italian and Polish emigrants.

He told them they were all Americans now and entitled to a voice in our government. Each group pledged him its support in the election.

Announcement of Hoover's day in New England was made today by the birth of a son Friday to Mr. and Mrs. William Langell, Holmes St.
